

OUR LADY'S SECONDARY SCHOOL, BELMULLET

Excellent co-educational school located on the beautiful Wild Atlantic Way!

Our Lady's Secondary School is a co-educational school located in the friendly town of Belmullet, Co. Mayo on the west coast of Ireland. The school has a tradition of academic excellence, with a consistently higher than average percentage (80-90%) of Leaving Certificate students having progressed to and excelled at university.

The school provides a diverse range of educational experiences that are both challenging and fulfilling for students. Teachers are encouraged to adopt a student-centered approach to education which ensures that each individual student's needs and talents are catered

for in the school. A holistic education is offered, where academic excellence is encouraged and the development of the whole person- spiritually, emotionally, socially and culturally- holds equal importance.

Students at Our Lady's have access to state-of-the art-facilities and a wide range of extra-curricular activities and sports are provided, in which all students are encouraged to participate. The school's stunning campus right on the water's edge allows for students to have unique outdoor learning opportunities and beautiful views as far as the eye can see!

CO. MAYO

Co. Mayo is often described as a playground for those with an adventurous spirit, and one only has to take a quick look at it on a map to see why! With miles of breathtaking coastline along what is known as the Wild Atlantic Way, Mayo's natural landscape provides an abundance of things to see and do, including exciting activities such as fishing, kite surfing, coasteering, kayaking, hiking and cycling.

With fantastic scenery and a fascinating past, secret places to uncover and vibrant towns and villages to visit, it's no wonder that Co. Mayo is an instant hit with exchange students who choose to live there. In their spare time, students can enjoy exploring their local area, walk some of the highest sea cliffs in Europe, and even take boat trips to nearby islands such as Achill, (Ireland's largest island) which has inspired many artists with its spectacular beauty.

International students receive a warm welcome in Co. Mayo, where the locals are famed for their kind and generous nature!
